HYPER SCAPE™

THE AFTERMATH | PART 1

Unbeknownst to Dr. Ivy Tan, Mathieu Eiffel had been prototyping a mind-mapping initiative called PROJECT: TOWER, meant to create a complete record of a person's memories and personality matrix. After Eiffel's passing, his assistant Simon Romée activated it to help decipher his mentor's unexpected death. But Simon's actions inadvertently created a virtual clone of Eiffel, one that threatened to destabilize the entire HYPER SCAPE. With Ultimate Grace's help, he stabilized the Eiffel clone and accessed its records, learning Eiffel's death was no accident. But when Dr. Tan discovered this, she caused a system shutdown to destroy both the clone and the incriminating evidence. The BLACKOUT caused horrific global damage, but no cost was too high. Now, the HYPER SCAPE reboots in the aftermath . . .
